

STRUBENVALE PRIMARY SCHOOL

Home work

GRADE 7: NATURAL SCIENCES

3 August to 7 August 2020

Hi Strubies learners and parents!

I hope you are all doing well. The Grade 7's have been working very hard at school and are having a break next week!

The Grade 7's have received Booklet 1 about *Energy and Change: Potential and kinetic energy* at school on Friday, 24 July. As they will only have a week of time to work at home, only the following need be completed:

- Activity 1: Types of potential energy
- Activity 2: Potential energy in food
- Activity 3: Kinetic energy

The class test that was due to be written on the 27th of July will now be written once the learners return to school, so revision of Term 2 work can also be done.

God bless you all!

Be safe, be smart, be kind!
Mrs. Becker
